Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary    Examiner   Art Unit   Samuel A Gebremariam   Art		Application No.	Applicant(s)				
Samuel A. Gebremariam    Samuel A. Gebremariam   Sali1		09/890,226	REIGNOUX ET AL.				
The MALUNG DATE of this communication appears on the cover sheet with the correspondence address — Period for Reply  A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Edenoismo for the map be available used the provised and of 37 FR1 1380, in no event, lowers, may a raply be timely field  If NO period for regit is period and the matter of the provised will apply and will expire SIX (6) MONTHS from the malting date of this communication. Plants to receive the office better than these matters after the major and the provision of the communication, even if timely field, may reduce any certain patients. See 7 CFR 1.78(2).  Any rephreceived by the Cities better than these matters after the mailing date of this communication, even if timely field, may reduce any certain patients. See 7 CFR 1.78(2).  All Septiments applications. See 7 CFR 1.78(2).  This action is FINAL. 2b)	Office Action Summary	Examiner	Art Unit				
Period for Reply  A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Extensions of time may be available under the provisions of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Extensions of time may be available under the provisions of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Extensions of time may be available under the provisions of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Extension of time may be available under the provision of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Extension of the provision of the provision of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Failune to make a control of the provision of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Failune to make a control of the provision of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  Failune to make a control of the provision of 37 CPR 1.136(a). In no event, however, may a reply be timely fixed.  All provision of the provision		Samuel A. Gebremariam	2811				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Extransics of them may be available under the provisions of 37 FR1-1360. In no event, however, may a reply be timely filled  If NO period for reply is specified above, the maximum datatory priorid will apply and will expire SW, (6) MONTHS from the mailing date of this communication.  Failure for reply which the set of controlled period for reply is specified above, the maximum datatory priorid will apply and will expire SW, (6) MONTHS from the mailing date of this communication.  Failure for govern which the set of controlled period for reply is specified above, the maximum datatory priorid will apply and will expire SW, (6) MONTHS from the mailing date of this communication.  Failure for govern which the provision of the mailing date of this communication, even if timely filled, may reduce any semined patient term adjustment. Set 37 GFR 1,704(6).  Status  1) Responsive to communication(s) filed on 96 June 2005.  2a) This action is FINAL.  2b) This action is non-final.  3) Is considered the mailing set of the communication, even if timely filed, may reduce any semined patient term adjustment. Set 37 GFR 1,704(6).  Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4) Claim(s) 1-1/2 is/are pending in the application.  4) Claim(s) 1-1/2 is/are pending in the application.  4) Claim(s) 1-1/2 is/are pending in the application.  5) Claim(s) 1-1/2 is/are allowed.  6) Claim(s) 1-1/2 is/are allowed.  7) Claim(s) 1-1/2 is/are allowed.  8) Claim(s) 1-1/2 is/are allowed.  8) Claim(s) 1-1/2 is/are pending in the application of the data and allowed.  9) Claim(s) 1		pears on the cover sheet with the	correspondence address				
2a) This action is FINAL.  2b) This action is non-final.  3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4) Claim(s) 1-7 is/are pending in the application.  4a) Of the above claim(s) is/are withdrawn from consideration.  5) Claim(s) is/are allowed.  6) Claim(s) is/are objected to.  8) Claim(s) are subject to restriction and/or election requirement.  Application Papers  9) The specification is objected to by the Examiner.  10) The drawing(s) filed on 06 May 2004 is/are: a) accepted or b) objected to by the Examiner.  Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.  Priority under 35 U.S.C. § 119  12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  a) All b) Some one of the priority documents have been received.  2. Certified copies of the priority documents have been received in Application No  3. Copies of the certified copies of the priority documents have been received in Application No  3. Copies of the certified copies of the priority documents have been received in Application No  3. Copies of the certified copies of the priority documents have been received in Application No  3. Copies of the Certified copies of the priority documents have been received in Application No  3. Copies of the Certified copies of the priority documents have been received in Application No  4) Interview Summary (PTO-113)  Paper No(s)/Mall Date  Paper No(s)/Mall Date  1) Notice of Informal Patent Application (PTO-152)  By Notice of Informal Patent Appl	A SHORTENED STATUTORY PERIOD FOR REPLY WHICHEVER IS LONGER, FROM THE MAILING DA  - Extensions of time may be available under the provisions of 37 CFR 1.13 after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period w  - Failure to reply within the set or extended period for reply will, by statute, Any reply received by the Office later than three months after the mailing earned patent term adjustment. See 37 CFR 1.704(b).	ATE OF THIS COMMUNICATION  36(a). In no event, however, may a reply be to the solution of the	NN. imely filed in the mailing date of this communication. ED (35 U.S.C. § 133).				
3)  Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4)  Claim(s)  1-7 is/are pending in the application. 4a) Of the above claim(s)  is/are withdrawn from consideration. 5)  Claim(s)  is/are allowed. 6)  Claim(s)  is/are objected to. 8)  Claim(s)  is/are objected to. 8)  Claim(s)  is/are objected to. 9)  The specification is objected to by the Examiner. 10)  The drawing(s) filed on 06 May 2004 is/are: a)  accepted or b) objected to by the Examiner. Application Papers  9)  The specification is objected to by the Examiner. 10)  The drawing(s) filed on 06 May 2004 is/are: a)  accepted or b) objected to by the Examiner. #### **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takiar et al. US patent No. 5,422,435.

Regarding claim 1, Takiar teaches (fig. 11) an integrated circuit device, characterized in that it comprises: an active chip (212) of a semiconductor material comprising an electrical circuit, the active chip having an active face (top surface of 212) provided with a plurality of electrical connection terminals (236 and 242) and a second face (bottom surface of 212), and a complementary chip (214) having a first face (bottom surface of 214) attached to the active face of the active chip, a second face (top surface 214) and a side surface (side surface of 214), wherein the complimentary chip has a plurality of recesses (222 and 224), each recess extending through the whole thickness of the complimentary chip and extending from above a contact terminal to the side surface (the inside surface of recesses 222 and 224 that is also the side of 214, refer to fig. 11).

Takiar does not explicitly teach the complementary chip has a larger thickness than the active chip wherein the active chip has a thickness of less than 100 um.

Application/Control Number: 09/890,226

Art Unit: 2811

Parameters such as thickness and width in the art of semiconductor manufacturing process are subject to routine experimentation and optimization to achieve the desired device quality during fabrication.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to adjust thickness of the active chip and complimentary chip of Takiar structure as claimed in order to form a densely packaged device.

Regarding claims 2 and 3, Takiar teaches substantially the entire claimed structure of claim 1 above except explicitly stating that the thickness of the active layer ranges from 5 to 50  $\mu$ m and the thickness of the complementary layer ranges from 100 to 200 $\mu$ m.

Parameters such as thickness and width in the art of semiconductor manufacturing process are subject to routine experimentation and optimization to achieve the desired device quality during fabrication.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to adjust the thickness of the active chip and complementary chip in the structure of Takiar within the range as claimed in order to form a densely packaged device.

3. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Takiar in view of Tada US patent No. 5,155,068.

Regarding claim 4, Takiar teaches substantially the entire claimed structure of claim 1 above except explicitly stating that the complementary chip is formed with the same semiconductor material as the active chip.

Application/Control Number: 09/890,226

Art Unit: 2811

Tada teaches forming an LSI chip (40) and forming complementary chip (4a) on the active chip (4b) made of silicon. Furthermore LSI chips are routinely formed of silicon material.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the same material to form both the complimentary chip and active chip as claimed in the structure of Takiar in order to form a densely packaged device.

4. Claims 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takiar in view admitted prior art.

Regarding claim 5, Takiar teaches substantially the entire claimed structure of claim 1 above except explicitly stating an insulating substrate having an outer face provided with outer electrical contact pads and an inner face, the second face of the active chip being attached to the substrate inner face.

Admitted prior art teaches an electronic unit for smart card comprising (fig. 1) an insulating substrate (18) having an outer face provided with outer electrical contact pads and an inner face (upper surface of 18).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the insulating substrate taught by admitted prior art in the structure of Takiar in order to provide access for further integration.

Furthermore the combined structure of Takiar and admitted prior art would inherently have the second face of the active chip being attached to the substrate inner face, and a plurality of electrical leads, each lead having a first end connected to a

contact terminal and a second end connected to an outer contact pad and lying entirely between the plane containing the second face of the complementary chip and the insulating substrate (fig. 1 of admitted prior art).

Regarding claim 6, Takiar teaches (fig. 1, admitted prior art) substantially the entire claimed structure of claim 1 above including the insulating substrate includes windows (26), each window being disposed above an outer electric contact pad (where lead 24 is connected).

Regarding claim 7, Takiar teaches (fig. 1, admitted prior art) substantially the entire claimed structure of claim 1 above including an electronic unit according to claim 5.

### Response to Arguments

5. Applicant's arguments with respect to claims 1-7 have been considered but are not persuasive. Applicant argues that the reference by Takiar does not teach recesses that extend from a contact terminal to the side surface of the complementary layer.

Clearly shown in fig. 11 of Takiar, recesses (222, 224) extend from above contact terminal (236) to the side surface of the complementary layer (214). The broad recitation of the limitation of "recesses extend from a contact terminal to the side surface of the complementary layer" is also taught by Takiar, because the claim does not explicitly state that the recesses is not bounded by the sidewall of the complementary layer.

### Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel A. Gebremariam whose telephone number is (571)-272-1653. The examiner can normally be reached on 8:00am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steve Loke can be reached on (571) 272-1657. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
